Flatness Measurement Calculation Program updates (English)

If using Flatness Measurement Calculation Program check the version number and if appropriate, please update.
To check the version number, run FL-E.exe, and select "File / About" in the menu bar to display version info.

   File name : FL-E.exe
   applicable version : 2.0_0 ~ 2.0_4 and 2.1_0 ~ 2.1_1

   After Update : 2.0_0 ~ 2.0_4 >>> 2.0_5
               2.1_0 ~ 2.1_1 >>> 2.1_2

Updates:
  Output display and print for:
    Total lengthwise measurement length = Lengthwise measurement pitch * Lengthwise No. of divisions
  Displayed calculation value of Crosswise measurement pitch * Lengthwise No. of divisions has been corrected.

  ** There is no impact on portion relating to flatness calculation.

Update Procedure:
  For some Windows installations, you must have administrator privileges.

A) If "FL-E.exe" has been copied from CD to hard drive or USB.
   Update the file copy that is being used.

   1) Download new executable file "FL_Update-E.exe"
   2) Move or copy the "FL_Update-E.exe" file to the location where "FL-E.exe" is.
   3) View the properties of "FL-E.exe" file and remove the "Read Only" check mark; click "OK".
   4) Run FL_Update-E.exe
   5) Click the "Update" button when the pop up window appears.
   6) Click the "End" button.

   Check the version display to confirm the update.
   If the version number is correct, the update is complete.

B) If using the CD to run "FL-E.exe" directly.
   Copy the "FL-E.exe" file to hard drive or USB, and follow the previous procedure to update.
   Once updated, please create a new CD using the updated "FL-E.exe" file.

NOTICE:
There is a different update file for each language version of the software.
Please be sure to download the executable file from the page corresponding to the proper language.
